The BLUETTI SP120 Solar Panel (120W) is perfect for new customers wanting to get a start in solar. It's great for off-grid applications, such as RVs, trailers, boats, sheds, and cabins — providing many benefits, including, but not limited to, quiet power production and grid independence. Adding a monocrystalline solar panel + solar generator kit can extend your travels further than ever before. Compatible with all BLUETTI Solar Power Stations.

Trouble-free and quick connection to the power stations thanks to the already MC4 connector. Simple operation, Multiple in series.

BLUETTI SP120 Solar Panel is four foldable design which makes it smaller, saves much space. Only 9.48lbs, which is portable to take away with you.

With 4*kickstand on the back of the solar panel, ensure it has the best angle for receiving solar light. The length of the MC4 cable is 3 meters long.

The package has a small bag to contain the MC4 cable you need.
