The BLUETTI AC50S (EU version) Portable Solar Power Station (500Wh/300W) - Keep Your Gears Running, Indoors And Out, has a large battery capacity of 500Wh. It is designed for a backup power supply in power failure at home or for an outdoor off-grid power supply. You can use it to charge various electronic products or power various electric appliances with rated power under 300W. The compact and lightweight design makes it perfect to use at home, in a campervan, or on a camping trip.  
500Wh\*0.85/Power of the device = duration of use (Hrs)

The compact and lightweight design makes the BLUETTI AC50S a Portable Power Station, perfect to use at home, in a campervan, or on a camping trip. AC50S could run most of your essential outdoor appliances and electronics such as mobile phones, cameras, Bluetooth speakers, mini freezers, radios, projectors and more. What's more, AC50S is also a perfect home backup power or supply system for emergencies. Along with a reliable PV panel, it's a fantastic way to support you in an emergency or during prolonged power outages. LED lighting has three modes: full bright, half-bright, and SOS flashing. You can switch it by pressing the led lighting button. It is designed for outdoor illumination and emergency help. The led illumination light is soft and broad at night, better protect your eye.  
Solar Panel (outdoor recommended): ≈4-5 Hours (Using 120W Solar Panels simultaneously with full sun)
